DETAILED ACTION

EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

The application has been amended as follows:

On page 1 of the specification, line 3, after the phrase "filed June 5, 2000" please add the following: --, now United States Patent 6,670,313--

2. The following is an examiner's statement of reasons for allowance:
3. The applicant has amended the claims to further define the mechanism of the solvent systems action as well as limiting the compounds which are allowed to be included in the composition.
4. The applicant's use of the transitional phrase "consisting of" now excludes any compound with a molecular weight of less than 350.
5. The prior art of record as well as the newly cited references contained herein fail to teach compositions which exclude materials with a molecular weight of less than 350.
6. For example, Chvapil et al (US 4,913,897) teaches a protective coating for the skin which may be spray on. However, the composition in this reference require a secondary solvent such as

water or alcohol to evaporate and form the film. As the instant claims now exclude such secondary solvents these references fail to teach the instant claims.

7. Similarly the Tipton reference fails to teach this exclusion and in fact teaches examples using solvents with a molecular weight below that which is now required.

8.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Gregory E. Webb whose telephone number is 571-272-1325. The examiner can normally be reached on 9:00-17:30 (m-f).
